OBJECTIVE

Aspiring Front-end-developer leveraging my communication and paralegal background to bring thoughtful and strategic user experience on the web through storytelling. I am a student completing a certificate in full stack development from the University of Denver, with newly developed skills in JavaScript, CSS, and responsive web design. My degree at University of Colorado at Boulder in Communication with a minor in Creative Writing helps me come up with creative user stories that come to fruition through my skills in web development. With each project, my aim is to create original and impactful designs. I'm excited to leverage my skills to make meaningful web applications with a team to build better experiences on the web. Let me help you tell your story.

TECHNICAL SKILLS

Front End: HTML5, CSS, jQuery, JavaScript, Bootstrap
Back End: Node, Express, MySQL

PROJECTS

Puppy Love | Repo | Deployed
My group of four created a website where prospective dog owners, or people looking to add another dog to their family, could research dog breeds, their characteristics, and compatibility with other dogs. It can as well as find parks in North Carolina to take the dog to. I worked on pulling information from the dog park API we found and displaying it on the page and the formatting for the dog parks page.
Tools/Languages: jQuery, HTML, CSS

Code Quiz | Repo:| Deployed
Developed a quiz about the CO Avalanche. Users get 120 seconds to answer five questions. Each time an answer is wrong, 10 seconds is deducted. If the answer is correct, a point is added, no time is deducted. When it's over, users can enter initials. Score is saved to local storage.
Tools/Languages: JavaScript, HTML, CSS

WORK EXPERIENCE

May 2020 – Present
Case Manager/Paralegal • Pre-Litigation • The Sawaya Law Firm

July 2017 – May 2020
Case Manager Paralegal • Pre-Litigation • Anderson Hemmat, LLC

Managed high caseloads at personal injury law firms. Trained other employees in protocol and case management software, including Amicus Attorney, Needles, and Smart Advocate. Streamlined process for following up on investigations materials. Developed training materials for medical records requests. Maintained and developed templates for letters. Kind and empathic communication with clients who were injured in a car accident.
